# SECURE IT USER TRAINING

**March 27 -31, 2023**

## Objective of the Short Course

This course is designed for today's computer users. It will provide participants with deep knowledge and skills to protect their information assets. As the internet is quickly moving into a necessity, so is the need to learn how to safely browse, watch videos, send an email, secure information assets and even work online.

## Who should Attend

This course is designed for teaching and technical staffs of various schools and colleges, staff from Government departments, employees from companies and fresh graduates. It will help the participants to attain the basic knowledge about cyber security and safeguard their information assets.

## Course Fee

- The participation fee is Rs 8K/- + GST per participant
- For students fee is 5K/- + GST per participant
- The mode of payment will be shared with the registered participants.
- No TA/DA will be provided to the participants. Participants have to arrange accommodation by their own. We will provide lunch and refreshments to all participants.

## Number of Seats

The number of seats is limited to 30 and will be served on first come first serve basis.

## Resource Persons

Resource persons are drawn from academia as well as cyber security industries that have several years of experience in the area.

## Duration

One Week

Date: March 27-31, 2023
